

# 绵阳南山中学 2023 年高考仿真考试英语试题

听力 1-5 CBBAC 6-10 CBBCB 11-15 AACAC 16-20 CACBC

阅读理解 21-23 CCD 24-27 ABDA 28-31 CBAC 32-35 DADB

七选五 36-40 GFDAC

完形填空 41-45 DBDCC 46-50 DAABB 51-55 DBCAC 56-60 CAABD

语法填空 61. Buried 62. least 63. to raise 64. who 65. is

66. is needed 67. guidance 68. on 69. significantly 70. an

短文改错 specially--special; responding 后加 to; this--it; appreciations--appreciation;

去掉 been; but--and; that--what; bring--bringing; meant--means; us--ourselves.

## 书面表达

The 54<sup>th</sup> World Earth Day, with the theme of "Earth for All", was observed on April 22<sup>nd</sup> this year. There are a series of activities centered around this in our school. To promote students' awareness of protecting our earth and add green to our planet, I'm writing to call on everyone to participate in the tree planting activity to be held next Sunday.

As we all know, trees are powerful. A tree is a vacuum cleaner, because it can release oxygen and reduce harmful gases including carbon dioxide in the atmosphere by absorbing them, providing clean and fresh air for people to breathe. Meanwhile, a tree also serves as a pump. It absorbs water from the soil which will be converted into steam through leaves and evaporated as a sprayer and humid air. Besides, a tree is a natural fertilizer. When the leaves fall on the ground, they will gradually rot, and the rotten leaves are the nutrient sources of fertile soil.

From what I've stated above, it's obvious that trees play a vital role in our daily life. It's high time that we should take immediate action to plant more trees and add some green to our earth. I'm convinced that, with our joint efforts, our living conditions will get greatly improved.

## 听力材料

1. W: When can you start the job if you're accepted?

M: About two months from now as my current company requires two months of notice period.

2. M: Where are you working now, Jennifer? Still in the hospital? W: No, I left the hospital and I refused the job at the drug store. I'm working as a teacher in a medical college now.

3. M: Hi, Jenny, would you like to come to Tom's Thanksgiving party tonight? W: I wish I could. However, I'm on the shift tonight.

4. W: Excuse me, do you know the embassy's opening hour? M: Sorry, I don't know. You can check on the notice board.

5. M: Hello? W: Hello, may I speak to Michael?

M: Sorry, he's not available now. Could you call back 30 minutes later?

## Text 6

W: Hello. Today I'm interviewing Joshua on his experiences going to a Japanese school. Now, Joshua, what time do you go to school?

M: Eight o'clock.

W: Eight o'clock. And do you go by yourself, or on a school bus?

M: No, I have a group that goes with me.

W: And what do you study at school?

M: We study kokugo, that is writing and reading, and sansu, that's math. And, let's see ... we do gym too.

W: Now what time do you come home from school?

M: We come home sometimes at 3:00 and sometimes at 2:00.

W: Okay, well thank you very much Joshua.

M: You're welcome.

W: Hi and welcome to Musical Talent! My name is Jane Brown and today I'm talking to Charlie from Seattle. Charlie, tell us about your music.

M: Hi, Jane. I love music! I started playing the piano when I was 5 years old. Now, I write songs, sing and play the piano in a band.

W: That's wonderful! What kind of music do you write?

M: Well, I write pop music, and I like playing rock, too.

W: Have you ever played at any concerts?

M: Yes, I have. Our band went to about ten schools in Seattle. It was a lot of fun.

W: Have you made a CD yet?

M: Yes, I have. I made one last year. It's called Someone Like You, and I've already sold 5,000 CDs.

W: Wow. How old are you?

M: I'm 15.

W: That's great!

**Text 8**

M: Sara! It's nice to see you again.

W: You know, Ben, I have been intending to call you for a long time.

M: Me, too. How have you been?

W: Pretty good.

M: Last time I saw you, you were planning to go to law school, weren't you?

W: Yes, I was. But I changed my mind. I've decided to become a doctor.

M: Oh, really? What changed your mind? I think studying law is boring.

W: No, studying law can be very interesting. But as we know, this year COVID-19 has affected our life greatly. Many people lost their lives and jobs. Many schools are on lockdown. We are relying a lot on doctors. So I'm applying for a medical school.

M: That's very good.

W: What about you? Are you still interested in studying business?

M: Yes, I am applying for Harvard Business School.

W: That's great. Good luck to you.

**Text 9**

M: Hello, Freya. Mountain biking is a popular sport among teenagers but there are fewer girls doing it. Am I right?

W: Yes, although we're growing in numbers. When I was 13, my dad bought my brother a mountain bike but I was given an ordinary one. I really wanted to join my brother, so in the end my uncle got one for me.

M: And now you're a winner?

W: Yes. I just won the Regional Championship. It was a difficult course with lots of rocks. At one point I thought I wasn't going to win. I was ahead and then I had to slow down because a photographer jumped out from behind a tree.

M: What do you think is the most important before a race?

W: Well, there's much to do. Take plenty of exercise to keep fit. Check the route in advance. And the most important I think is that you must make sure everything's working on the bike. If there's anything wrong with the bike, you will be in trouble. And the clothes shouldn't slow you down so they need to be tight. They might feel a bit uncomfortable when you first put them on, but you will soon get used to them. I'm not bothered about not looking pretty—I just want to win.

**Text 10**

What is it like to travel in space? If you have ever watched space movies, you may know something about it. Aurora Station is the world's first space hotel. US company Orion Span built the hotel. The hotel is around 12 feet wide and 35 feet long. It plans to welcome its first guests in 2022. It will fly 320 kilometers above Earth. It can hold six people at a time. Two of them will be workers. They may be former NASA astronauts. Each trip aboard the station will last for 12 days. Guests there will be able to do many interesting things. For example, they will see around 16 sunrises and sunsets every 24 hours. They can take part in research experiments such as growing food in space. Later, they can bring the food back to Earth as a souvenir. These are the same things as astronauts usually do. Guests can also share what they see and hear with others on Earth. They can have a video chat using a high-speed Internet connection. But each guest will have to pay at least \$ 9.5 million. That's really a large amount of money.
